SUMMARY

Lead Product Designer with 10+ years driving end-to-end design across fintech, enterprise SaaS, and consumer products at Insight Partners, Morgan Stanley, Intuit, American Express, and Mastercard. I bridge design and engineering — combining design systems architecture, AI tooling and feature integration strategy, and front-end development to ship products that are fast, accessible, and built to scale. CPACC-certified accessibility leader. Proven track record turning complex, technical domains into intuitive experiences with measurable outcomes: 7pt attrition reduction at Intuit, 4x feature adoption at Insight Partners, 20% YoY engagement growth at Morgan Stanley.

EXPERIENCE

Lead Product Designer (Freelance), Insight Partners

NEW YORK, NY | MARCH 2025 – PRESENT

- Led comprehensive redesign of Insight's design system to support AI-powered features across the product suite, including pattern libraries, component documentation, and implementation guidelines—contributing to 4x improvement in feature adoption and user engagement.
- Defined AI integration roadmap and designed multiple AI features, including intelligent summaries, conversational search, and an AI chatbot—resulting in 3x increase in user satisfaction scores and 4x growth in daily active usage.
- Built a custom design system extending Material UI with branded components, design tokens, and comprehensive documentation—improving design consistency across 5 products and reducing engineering implementation time by 60%.
- Pushed for AI tooling (Make, Lovable, v0, etc.) for rapid ideation, high-fidelity mocking, prototyping, and evolving our system.

Senior Product Designer (Consulting), Intuit

NEW YORK, NY | FEBRUARY 2024 – FEBRUARY 2025

- Led end-to-end design of QuickBooks Online Manufacturing from concept to MVP launch, conducting customer research and collaborating with cross-functional teams to deliver a well-received product that reduced customer attrition by 7 percentage points year-over-year.
- Redesigning Sales Orders and Purchase Orders features based on customer feedback and usability testing, enabling full rollout from 5% beta to 100% of QuickBooks Online's user base.
- Designed innovative "Copy" feature for QuickBooks Online, streamlining common workflows and earning praise from accounting professionals and power users.
- Collaborated with product managers, engineers, and the Intuit Design System team to research, design, and ship customer-requested improvements across QuickBooks Online's application suite.

Director, User Experience Design, Morgan Stanley

NEW YORK, NY | JUNE 2019 – AUGUST 2023

- Grew and led design team through MarCom Award-winning redesign of Morgan Stanley's global website and digital properties, collaborating with executive leadership, agency partners, and engineering teams to achieve 20% year-over-year engagement growth and 5x improvement in WCAG compliance—significantly exceeding financial industry accessibility benchmarks.
- Led creative direction and hands-on execution for Morgan Stanley's "Release 4" global rebrand, delivering visual design systems, information architecture, content strategy, and digital marketing assets.
- Created Morgan Stanley's "R4" design system and led Figma migration, improving design team velocity by 3x (measured via sprint delivery) and establishing consistent design patterns across all digital properties.
- Served as Accessibility Subject Matter Expert and leader in the Accessibility Center of Excellence, driving firm-wide accessibility standards, training programs, and WCAG compliance initiatives.

UX Senior Consultant, Mastercard

NEW YORK, NY | OCTOBER 2018 – MAY 2019

- Accelerated product development for multiple Mastercard teams by leading rapid prototyping and validation sprints, reducing time-to-market by 50-65% through early design exploration and stakeholder alignment.
- Led design for Mastercard Labs' AI/ML and blockchain initiatives, conducting research sessions, rapid iteration, and prototype development to validate emerging technology concepts.
- Developed high-fidelity prototypes for emerging product concepts, enabling stakeholder validation with enterprise customers and technical feasibility assessment with development partners.

Senior User Experience Designer, American Express

NEW YORK, NY | SEPTEMBER 2015 – JUNE 2018

- Led UX transformation of Corporate Account Reconciliation, an enterprise accounting platform serving Fortune 500 clients, achieving 80% adoption rate for the redesigned SaaS experience within the first year.
- Reduced technical support volume by 80% through user research, usability testing, and iterative design improvements that addressed root causes of customer confusion and common workflow issues.
- Designed marketing and brand assets for American Express Small Business rebrand, including digital and print collateral.

User Interface Engineer, FULLBEAUTY Brands

NEW YORK, NY | JUNE 2014 – SEPTEMBER 2015

- Led responsive redesign of seven e-commerce properties, collaborating with product and design teams to optimize mobile shopping experiences and increase mobile conversion rates.
- Conducted a comprehensive front-end code audit and optimization across seven e-commerce sites, resolving 70% of outstanding performance and rendering issues.
- Partnered with Product and Analytics teams to identify and implement UX improvements across seven e-commerce sites, optimizing page load performance and reducing cart abandonment by 15% on product pages.

Senior Front-end Developer, Time Inc

NEW YORK, NY | FEBRUARY 2008 – FEBRUARY 2014

- Led team of 5 front-end engineers through complete redesign and CMS migration of Time.com, coordinating technical architecture and implementation across editorial and engineering teams.
- Redesigned Health.com with focus on performance optimization and code quality, achieving 4x increase in organic traffic through improved site speed and SEO implementation.
- Implemented SEO best practices and front-end performance optimizations, reducing average page load times by 90% across Time Inc. properties.
